FOX | EHS | RISK ASSESSMENT
PREFERRED VENDORS

FOX Environmental, Health & Safety (EHS) reviews third-party production documentation to flag or raise any concerns and identify where additional EHS support may be needed. The production company directly supports and is responsible for the health and safety of its own cast, crew, and everyone else involved in its work — FOX EHS conducts a review, not day-to-day safety management.

FOX EHS recommends the following preferred vendors for risk assessment support. Please reach out to the FOX EHS team prior to contacting the vendors.
